COSTLY ROAD FAULTY; BLAME TO BE FIXED

Oahu Loan Fund Commission
Will Look Into '\$16,000-a-
Mile' Section Already
Cut Up

TROUBLE LAID TO BAD
WEATHER AND TRAFFIC

One of Contractors Says Huge
Auto Trucks, Heavily Load-
ed, Slice Surface to
Pieces

Honolulu's famous \$16,000-a-mile road, constructed on the windward side of Oahu after great litigation and vexation of spirit to everybody—including the taxpayers—is to be the subject of official probe by the Oahu loan fund commission.

The road, not yet finished, is going to pieces in its completed parts. Where the blame lies and what to do about it are the subjects that the loan fund commission will take up, probably tomorrow, when a meeting is to be held.

John H. Wilson, the contractor who was the winning bidder for the job, is now on the mainland, but L. L. McCandless, who was his financial backer and who is associated with him in the work, represents the interests of the contractors of the road. McCandless said this morning that it is no fault of the contractors that the road is going to pieces.

"In the first place, the road surfacing was laid under adverse weather conditions, the rains falling heavily and the material being continually wetted, as well as the porous ground around it," he said this morning. "In the second place, no road built under

QUEEN ATTENDS GOLDEN JUBILEE CEREMONY MUCH BUSINESS HANDLED IN SESSIONS TODAY

Scene at Saturday's celebration of the Golden Jubilee of Rev. Henry H. Parker in the Kawaiahae pastoral. From left to right: Mrs. A. S. Wilcox, Rev. Henry H. Parker, Queen Liliuokalani, Mrs. L. A. Coney and Mrs. Monarrat.

With the exercises in celebration of the fiftieth anniversary of the organization of the Hawaiian Board of Missions and the golden jubilee of Rev. Henry H. Parker as pastor of the Kawaiahae church completed Saturday and yesterday, the pastors and delegates in attendance at the ninety-first annual conference of the Hawaiian Evangelical Association met in the Kawaiahae church this morning for their fourth session. The meeting was given over entirely to the business of the association and included, among other things, the reading of reports showing the condition of the churches throughout the islands which are under the jurisdiction of the association.

Unfinished business carried over

from the meeting Saturday morning was completed, and consisted in finishing the reading of the report of the treasurer, which was done by Rev. Henry P. Judd in the absence of the treasurer, Theodore Richards. Following this was the election of the corresponding secretary and the treasurer of the Hawaiian board, and, as was expected, Rev. W. B. Oleson and Theodore Richards, respectively, were re-elected. The following persons were elected to serve on the board during the ensuing three years: C. K. Al, A. C. Alexander, F. C. Atherton, George P. Castle, F. W. Damon, Rev. O. H. Gulick, John Kamanouli, J. M. Lydgate, Paul Super, Vaughan MacCaughy, Jonathan Nakila, Rev. T. Okamura, Rev. H. H. Parker, J. A.

Rath, Rev. F. S. Scudder, C. S. Kimoto, W. D. Westervelt.

The next item of business was the reports of the island associations being presented as follows: Oahu, J. K. Nakookoo; Kauai, Soimon K. Kailili; and Maui, Rev. I. D. Iaea. Following this, W. B. Oleson presented the report of the statistical secretary which, after being read, was voted to be printed in full in the "Hoaloa," the Hawaiian publication issued monthly by the Hawaiian board. The report was interesting to a marked degree and brought out a detailed account of the increase and loss in membership of the various churches dur-

CIVIL SERVICE COMMISSION TO HOLD SESSION

Senator Wirtz Pleased with the
Membership Named by
Mayor Fern

WILL COMMENCE ITS
WORK IMMEDIATELY

Opinion of Attorney-general
Thayer Is Ignored in Mak-
ing Appointments

Immediately calling a meeting of the civil service commission, which was appointed by Mayor Fern and approved by the supervisors at their meeting Saturday, Senator Ambrose J. Wirtz, chairman of the commission, showed today that there will be no delay in bringing the fire and police departments under the jurisdiction of the new commission.

Mr. Wirtz sent notices to his fellow-commissioners, D. M. Kupihua and John P. Doyle, upon receiving word of their appointments, that the first meeting will be held Tuesday morning, at which time the organization of the body will be effected and the first steps taken in the work before the commission.

Those who followed with interest the fight made in the senate and in the house of representatives during the last session of the legislature for the passage of the bill, bringing the police and fire departments of Honolulu under civil service, expressed themselves as highly pleased with the appointments made by Mayor Fern.

The only question raised is the legality of the appointments. In naming Senator Wirtz and Representative Kupihua the city chief executive ignored the opinion given him by Attorney-General Thayer, in which it was stated that the statute prohibits a member of the legislature from holding another office of the territory applied, indirectly at least, to the commissioners of civil service, and that if the appointment of a member of the legislature to such an office were not absolutely invalid, it was clearly against public policy.

The mayor stated this morning that he believed that his appointments were unquestionably valid and a similar statement was made by Senator Wirtz, who asserted that if he believed there was a serious doubt in the matter he would have declined the position. Former first deputy city and county attorney, Fred. Milverton, in a brief opinion, called for by the mayor some time ago, held that a member of the legislature acting as a civil service commissioner could not be considered as holding two positions under the territory within the meaning of the statute.

"If I thought there was good ground to doubt the validity of my appointment, I would have declined it," said Mr. Wirtz this morning, "but it seems

BULGARS START BATTLE WON'T WAIT FOR PEACE

While Parliaments Are Discussing Russia's Proposal for Mediation, Czar Ferdinand's Forces Sent Into Action Against Servians in Macedonia

BELGRADE, Serbia, June 30.—The Balkan situation has suddenly grown into a crisis. After several days of quiet, due to the prospect of peace caused by Russia's declaration in favor of bloodless settlement of territorial disputes, Bulgaria took the aggressive this morning.

Even as the parliaments in Belgrade and Sofia were discussing Russia's proposal for mediation, and planning to divide up the conquered Turkish territory so that there would be no further friction, word came to the capitals that the Bulgarian front in Macedonia had been put in motion and the Bulgars had clashed with the Servians. It is feared that this act will result in the calling off of all negotiations. Serbia does not believe that Bulgaria will abide by an agreement now.

Harriman Roads Will Finally Be "Unscrambled"

ST. PAUL, Minn., June 30.—The United States district court has at last agreed with Union Pacific representatives upon a plan for the dissolution of the Harriman railroad system, whose merger has been declared in violation of the law. Under the plan now devised, the Pennsylvania system exchanges its holdings in Baltimore & Ohio stock for \$38,000,000 of Southern Pacific stock, and a specially created trust company guarantees to market the remaining millions of Southern Pacific stock held by the Union Pacific, before 1915.

This plan, it is believed, will allow the Union Pacific to unload all of its S. P. holdings without demoralizing the market.

Scores of Deaths From Heat On The Mainland

CHICAGO, Ill., June 30.—The terrific heat of the last three days continues unabated. Forty-two deaths have been reported, with 300 heat prostrations. The suffering in the tenement districts of this city is intense. The hospitals are crowded with patients.

McLoughlin Wins Again

WIMBLEDON, England, June 30.—Maurice McLoughlin, the American tennis champion, played brilliantly today in his match with J. C. Parry, the Irish-Scottish champion, and as a result the American enters the finals for the All-England championship. He defeated Parry in straight sets, 6-4, 7-5, 6-4.

\$319,000,000 For "Movies"

NEW YORK, N. Y., June 30.—What a tremendous hold the moving picture houses have in the United States is shown by figures just published. The statistics show that in 1912 the playgoers spent \$319,000,000 seeing the "movies."

Jack Johnson Not Worrying

MONTREAL, Canada, June 30.—Jack Johnson, champion heavyweight of the world and now a fugitive from justice, having fled from the United States to avoid serving a year's sentence under the "white slave" act, sailed from this port for Europe. He declared before sailing that he intends to recoup his fortune, shattered during his trial, by boxing bouts in Paris.

H.B. GIFFARD HURT IN AUTO ACCIDENT

H. B. Giffard, of the brokerage firm of Giffard & Roth, who left for Hawaii on a vacation a few days ago, returned to his office this morning with a severe cut over his eye-brow, the result of an automobile accident near Kona, the last of the week.

While attempting to repair the "self-starter" of the machine in which he was driving, a sharp piece of steel flew off, barely missing his eye and inflicting a deep wound over the eye-brow.

Several stitches were taken in the cut before he began his trip home. It was found when he arrived here that they would have to be taken out and the wound sewed up anew. It will be a number of days before the cut will heal, his physicians have told him.

Though his vacation was brought to a sudden end, he saw considerable of the island, especially on the Kona side. There the rains have improved conditions wonderfully, he says, and the cattle are in excellent shape. Grazing is better now than it has been for years on all the ranches, states Mr. Giffard.

The sugar plantations on which he visited also are in fine condition, he says.

In a conflict between strikers and a strike breaker of the Pacific Gas and Electric company in San Francisco, one striker was shot and several others badly beaten.

With six thousand tons of coal from the east coast of the United States and intended for the navy, the British steamship Strathairn is due to arrive at Honolulu the latter part of August.

Five inter-island steamers reached this port yesterday, adding considerably to the stock of sugar on hand and awaiting shipment to the mainland.

Condemned Murderer Makes Attack on Fellow Prisoner

Domingo Rodrigues Murderously Assaults Japanese—Is Overpowered by Guard and Thrown Into Cell—Now Kept in Solitary Confinement—May Have Been Attempting Jail-break

In a swift, blind fury, unaccountable as it was sudden, Domingo Rodrigues, one of the three Filipino murderers doomed to hang July 8, assaulted a fellow prisoner at the rear of his cell in Oahu prison Saturday. Changing in an instant from mild-mannered, downcast felon to bloodthirsty, Domingo picked up a wooden bucket cover and struck blow that sent the victim to the floor unconscious and opened a deep laceration across the back of his head.

High Sheriff Henry, discussing the incident this morning, said the attack was so unexpected and done so quickly that the prison guard, at Domingo's side when the murderous mood seized him, was unable to interfere until the blow had been struck.

Up to that time the three Filipinos, Rodrigues, Miguel Manigbas and Hilario Bautista, had been permitted a few minutes' walk in the narrow corridor each day, while another prisoner cleaned up their cells. Saturday morning Domingo was marching up and down the little hall, the guard keeping step with him. When they last approached the door of Domingo's cell the other prisoner, a Japanese, having finished his work, was just emerging, bending over and carrying a bucket. The bucket cover lay outside the door. Before the guard realized what was happening, Domingo had snatched up the cover and swung it down upon the Japanese's head.

The victim wilted and dropped to the cement floor. Before Domingo could move again the guard caught him by both arms, picked him up bodily and threw him into the cell, slamming the door and turning the key before he could regain his feet.

The Japanese did not regain consciousness for several minutes. The gash across the back of his head was as clean as though it had been slashed by a knife. Sheriff Henry says the bone was not fractured, however, and the prisoner apparently suffered no grave injury.

Since that day the three doomed men have been compelled to take their exercise within the very narrow confines of their individual cells and must continue to do so until the final day arrives. Meantime an armed guard marches continually up and down the corridor before the death cells, maintaining a vigilance that is not relaxed at any moment of the twenty-four hours. At night a bright light in the corridor shines through the bars, enabling the guard to see everything plainly in each cell.

"Domingo told one of the guards that he attacked the Japanese prisoner because the latter had called him a bad name some days ago," said Sheriff Henry. "But I am inclined to doubt it. That particular man has been a model prisoner, by no means offensive, and none of the guards can remember that he has ever spoken to any of the condemned men."

"It is possible Domingo was making a desperate attempt at a jail delivery, hoping to start excitement that would enable him to overpower the guard and get away. But that hardly is likely, for his fury was not directed toward the guard."

As customary with men under death sentence, the Filipinos are kept in strict seclusion, apart from the other prisoners, but permitted to see a few personal friends, to have such reading matter as they desire and to select their menus. So far the only persons from outside who have called have been Father Valentin and Rev. Mr. Smith, the former bringing some Biblical and other literature in Filipino print.

It is reported that Mrs. Pankhurst, the suffragette leader, who has just been released from prison, is in a very serious condition as a result of her prolonged hunger strike.

The Lusitania is being equipped with naval rifles to conform with England's new policy of arming passenger steamers.

LORD-YOUNG CO. LOW ON ONE JOB, HIGH ON ANOTHER

Quarantine Island Sewerage
Work May Be Awarded to
Coast Contractor,
Concannon

That the Lord-Young Engineering Company is the winner of the contracts for officers' and gunners' quarters at Pearl Harbor, on which bids were opened in Washington Saturday, is the information cabled here this morning by the Star-Bulletin's Washington correspondent. He telegraphed as follows:

WASHINGTON, D. C., June 30.—The Lord-Young Company was the lowest bidder on the gunners' quarters with \$13,880, and also on the officers' quarters with \$19,440, and will get the contract.

The Star-Bulletin's correspondent also cabled this morning in response to a query as to the winner of the contract for the Quarantine island sewerage system, on which bids were opened about a week ago. The following cablegram was received at noon today:

WASHINGTON, D. C., June 30.—The Quarantine island contract has not yet been awarded. The bids are now being analyzed. W. N. Concannon is the contractor.

SAD DRAMA ENACTED AT WAIKIKI MAYOR FERN IS IN THE CAST

The scene is Waikiki beach. When the curtain rings up a number of persons are seen in the act of bathing or sunning up courage to jump into the ocean blue. At the center stage are two maidens, wearing tight-fitting men's bathing suits. They hold their picture. Dotted married men lurk up stage stealthily observing the two girls, yet thinking of their wives and other difficulties.

There is a noticeable excitement along the beach at the unusual and fascinating sight. Old women are heard to tell old men that "it was not like that in the olden days." And though the old men don't say anything, it is made clear by their optic actions that they would rather have one of the present days than a whole assortment of the bygone ones. Younger women are seen leading their husbands firmly and blushing away, disappearing at right and left upper.

Soon the beach is cleared of all but the irresponsible unmarried and the two maidens, who walk slowly and demurely to the water's edge. They have noticed the looks of reprimand from the elderly women and young wives, but do not seem to understand its cause. They seem like the maidens of Arcadia who found themselves suddenly in a queer and different civilization where people had strange ideas and spoke vaguely of "modesty."

DRYDOCK REPORT IN WASHINGTON; EXPERTS CONSULT

Local Predictions That in No
Case Will Pearl Harbor
Feature Be Wholly
Abandoned

WASHINGTON, D. C., June 30.—The report of the board of experts detailed to examine and report on the Pearl Harbor drydock project following the disaster of a few months ago was received here this afternoon from Honolulu. It is being examined by navy department experts and will be used as the basis for a decision both as to the liability of the contractors who were building the drydock and as to what shall be done about completing the work.

C. S. ALBERT. Local predictions are emphatic that in no case will the Pearl Harbor drydock project be abandoned, though there is believed to be a possibility that a floating drydock may be decided upon instead of a graving dock.

non's bid is \$29,375, and that of the Lord-Young Company \$33,804.

W. N. Concannon is a coast contractor who has been a bidder on local work for about a year.

AUTO TRUCKS TO PARADE JULY 4

Stunning Styles Promised in
New Feature in the Big
Celebration

"I find that the big firms of the city are planning to put their auto trucks in the Fourth of July parade," said Charles H. Frazier, in charge of the auto truck section of the pageant, this morning, "and I wish to impress upon the public that this auto section is going to be something big and new, and that it is going to show the national colors in brilliant style."

"The decorations of the autos are limited to the national colors, but the entrants will be allowed to display such signs as they see fit to use. This makes the entries inexpensive, but leaves a leeway for some original work, and I understand that there will be some strikingly decorated conveyances. The committee in charge has allowed signs of a more or less advertising nature, and I have heard from some of those who are planning to enter their machines, of schemes to show some comic signs and floats. There will be something like thirty decorated auto trucks in line, and they will make a very brilliant showing."

Senator Charles F. Chillingworth, who has been appointed grand marshal for the Fourth of July pageant, discussed the line of march of the parade with Manager Ballentyne of the rapid transit this morning, and the following route was arranged: From the capital along King street to Nuuanu, up Nuuanu to Beretania avenue, along Beretania to Miller street, and thence to the capitol. Mr. Chillingworth is selecting his aides today, and among them will be Oscar Cox, Jack Fernandez, Henry Rose and "Haoie" Sumner. Work was commenced this morning on the decoration of the grandstand in the capitol grounds, at which place the exercises will be held at 11 o'clock on the morning of the Fourth.

Monuments

The largest clock in the city to be lost from.
